Abstract

This document contains the detailed wireframes of the Hypermedia Applications (Web and Multimedia) course's project for the academic year 2016/2017. The project consists in designing and implementing a website for a medical clinic.
The document is a more detailed overview of the designed wireframes, that will reflect the structure of the interactive mock-up included in this delivery. All the wireframes were designed using Balsamiq.

2.9.9 Private Area - Reservation: Select Date and Hour . . . 45
2.9.10 Private Area - Reservation: Final Review 46

Wireframes

2.1 Home Page

The home page of the website includes an overview of the website in general (what is the website about) and different links to useful information in the website.
We included *Our best services* to provide instantly an idea of reliability and excellence.
The page contains links not only through the top-bar landmarks, but also in the page itself as buttons (the *Explore the Service* button, to solve the issue presented in the design document in Paragraph 2.3.2).
