### News:

#### New Clinic Lobbies

After several months of construction dust, we completed a major renovation of the clinic building lobbies this past May.

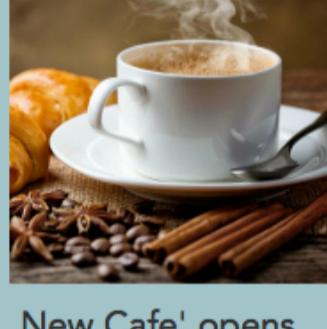

Upgrades to the clinic lobby include, new glass doors throughout and new cashier windows

#### Software Upgrades

The CPM clinic recently got an upgrade in the way they provide patient care and manage patient information.

Over the past year or so, administrative and information technology staff have been working behind the scenes to transition the clinic information management system

#### New Cafe' opens

In our clinic in Via Saronno 5, a new food-service area will open at 6 a.m. Wednesday, July 12. The new site is on the main level of the Surgery Area near the Information Center.

# Drs. Amanda Curie

## Radiotherapist

Phone: 13162345633

Email: amanda.curie@cpm.com

[Home](#) > [Doctors](#) > Amanda Curie

### About Drs. Amanda Curie

Drs. Amanda Curie oversees the radiotherapy health area as a well-respected, certified radiotherapist in the Milan area. She completed her bachelor of science in biomedical sciences at the University of South Florida. After she had completed her B.S., she continued her education and earned her master's of public health degree with a concentration at the Harvard School of Public Health. Afterward, she attended the University of South Florida College of Medicine, where she completed her medical degree. During this time, she became a member of the Alpha Omega Alpha Medical Honor Society.

Upon graduating, Drs. Curie completed an internship in internal medicine. Her residency at the University of South Florida College of Medicine in Tampa, FL, focused on radiotherapy. She brings all of her knowledge and enthusiasm for helping others to CPM clinic. She improves physical health and patients' confidence with the services she supplies.

Amanda is an energetic practitioner who enjoys providing evidence-based, exceptional care and educating patients also on lifestyle changes for better overall health. Her experiences and interest in treating a variety of conditions have motivated and inspired her career in radiotherapy.

## Description

Orthopedic surgery or orthopedics (alternatively spelled orthopaedic surgery and orthopaedics) is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and nonsurgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders. Our orthopedic surgeons are recognized nationally and internationally for their surgical technical excellence and innovative abilities to solve both simple and difficult orthopedic problems. By collaborating with scientists in CPM Clinic research facilities for biomechanics and regenerative medicine, our surgeons develop new solutions for patients that improve healing, speed rehabilitation and improve outcomes.

At CPM clinic, your team of orthopedic surgery experts uses the latest techniques and technology to improve care for people with musculoskeletal problems. From diagnosis through treatment, CPM Clinic orthopedic surgeons at campuses in Minnesota, Arizona and Florida are at the forefront employing advanced technologies in the best interest of patients.

## Description

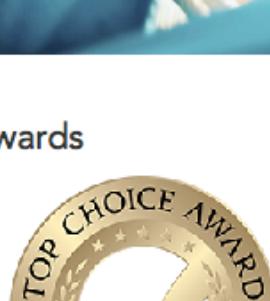

The CPM clinic has an area dedicated to the Day Surgery and One Day Surgery, surgical activity that allows the patient to return home the day of surgery or, if necessary, to spend a night in a reserved area.

The patient, assisted by nurses and administrative staff has the opportunity to plan and carry out all pre-operative tests in few hours.

Beyond surgical excellence, CPM is a unique environment, particularly well-suited to meet the ever-changing healthcare needs. Please click on the "Services" button and choose the Surgery service that you need from our wide range on Surgery activities.

### Financial information:

Total revenue from current activity: 10.4 M€

Income from current activities: 7.6 M€

Contributions from benefactors: 2.8 M€

Increase of the revenue compared to last year: +58%

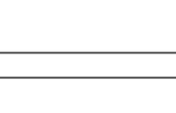

## Awards

### DiversityInc Top Hospital and Health System

CPM Clinic has earned this designation annually since 2011. CPM was ranked using an objective analysis of 183 factors, based on data from a 300-question survey. The four areas of measurement are talent pipeline, equitable talent development, CEO/leadership commitment and supplier diversity.

**First place - Better Value Healthcare**

The Better Value Healthcare analysis of clinics includes data from nearly 5,000 centers across multiple clinical specialties, procedures and conditions. Scores are based on a variety of patient outcome and care-related factors, such as patient safety and nurse staffing. U.S. News ranks hospitals in 16 adult and 10 pediatric specialties. Hospitals also receive a rating in 9 common procedures and conditions, including hip replacement and COPD.

### Recommended - Dove e come mi curo

The "Dove e come mi curo" guide is as an independent assessment that highlights the best clinics in Italy. The ranking especially reflects the hospital mortality and the quality of care at weekends.

# Radiotherapy

[Home](#) > [Areas](#) > Radiotherapy

## Description

Radiotherapy is a treatment where radiation is used to kill cancer cells.

It can be used to:

- Try to cure the cancer completely (curative radiotherapy)
- Make other treatments more effective
- Reduce the risk of the cancer coming back after surgery (adjuvant radiotherapy)
- Relieve symptoms if a cure isn't possible (palliative radiotherapy)

Radiotherapy can be given in several ways. We will recommend the best type for you.

The most common types are:

- Radiotherapy given by a machine (external radiotherapy)
- Radiotherapy implants (brachytherapy)
- Radiotherapy injections, capsules or drinks (radioisotope therapy)

The machinery used in this type of treatment is invasive, but radiotherapy is generally considered the most effective cancer treatment after surgery and you will be allowed to go home soon after the therapy. CPM clinic was the first clinic that had started the Radiotherapy services in the Europe. Click on the "Services" button to see our services in this field.
